

Service Centres specializing  
in the reconditioning  
of your Mechanical Seals

# LATTYseal

SERVICES

GRUPE  
**LATTY**<sup>®</sup>

LATTY International, with its 90 years of experience as a designer and manufacturer of mechanical seals and industrial sealing solutions, has a network of service, repair and reconditioning centres in France and abroad, through its subsidiaries.

LATTYSeal services is a comprehensive service that provides you our know-how and advice in the continuous search for improving your systems.

## AREAS OF EXPERTISE

Reconditioning of standard or specific mechanical seals, modules, agitators, pumps, etc.

- ❖ Advice and improvement of the reliability of your sealing devices
- ❖ Survey of your equipment
- ❖ Adaptation of your equipment to technological and environmental trends
- ❖ Recommendation, support in order to improve processes
- ❖ Systematic identification of equipment by engraving cost-estimate number in reconditioned mechanical seals to provide 100% traceability
- ❖ After reconditioning operations, dual mechanical seals, pumps, agitators, etc, undergo static pressure tests with air, water or compatible medium.
- ❖ Each mechanical seal is packaged in an individual box with customized labeling
- ❖ Full traceability, record of performed operations
- ❖ Free, customized and detailed cost-estimate for reconditioning operations
- ❖ Expert report provided with photos for every modules reconditioning.

**The know-how and experience ensure the total efficiency you expect.**

Our skilled technicians who are specifically trained in your different production environments will provide you the required advice, audits and repairs.
